## ABOUT ME

Tech-savvy professional with a Computer Networks and Systems degree from ESNIDH, specializing in Network Management and Programming (C, Python, Java) certified by CISCO Network Academy. I am an experienced Quality Assurance Tester with expertise in automation tools and API development. Fluent in English, French, and Italian, I am eager to tackle challenges that enhance my technical and interpersonal skills in innovative projects.

## WORK EXPERIENCE

**2022 - 2024**

**JUNIOR FULL-STACK DEVELOPER | QA TESTER | TOOLS AND AUTOMATION SERVICES - LOGICALIS PORTUGAL**

I specialize in creating automated scripts in Java and Python for functional (E2E), integration, and unit tests, generating detailed error reports. With containerized server deployments, I integrated these systems into CI/CD pipelines using Jenkins and SonarQube. Additionally, I developed scripts to automate data integration from CISCO APIs into Logicalis databases, optimizing information flow.

**2021 - 2022**

**WEB DEVELOPER - FREELANCER**

The work consists of website development and management based on analytical Google tools for optimization to improve the performance of websites.

## TECHNICAL ABILITIES

- Programming Languages: Java, Javascript, SQL, PHP, Python, C, HTML 5, and CSS 3.
- Frameworks: Selenium, Cypress, Robot Framework, Spring Boot, Maven, JUnit, Cucumber, TestNG and Allure.
- Databases: Oracle Apex, MySQL, MongoDB, and Neon.
- Tools: VSCode, IntelliJ, Office, Power BI, Make, Jenkins and Docker.
- Operative Systems: Windows and Linux.

## EDUCATION AND TRAINING

**EDIT School**
Full Stack Web Development (17)
2023 - 2024

**Escola Superior Naútica Infante D. Henrique**
Networking and Information Systems (16)
